Early Help at Chilcote

Early Help means taking action to support a child, young person or their family early in the life of a problem, as soon as it emerges. Early Help can be provided in the most complex of circumstances as well as the simplest.

If you are concerned that due to any reason, new or existing, that you or your family may not be able to meet all of the needs of your child or children then please talk to us so that we can get you 'Early Help'. Hopefully, through a partnership approach we can provide the support, possible interventions and help by specialist professionals that your family needs.

Chilcote has three people in place as Designated Safeguarding Leads: Mrs Doherty, Mr Cross and Mr Haycock. Should you wish to raise your concerns and ask for help then please feel free to approach one of these members of staff. Alternatively, speak to any member of the Teaching or Support staff team and they will be happy to help.

Should you raise concerns with us or we feel that there are concerns, we will adhere to the following principles in order to make decisions about the needs of your family and what the next steps should be in getting you the help that you need.

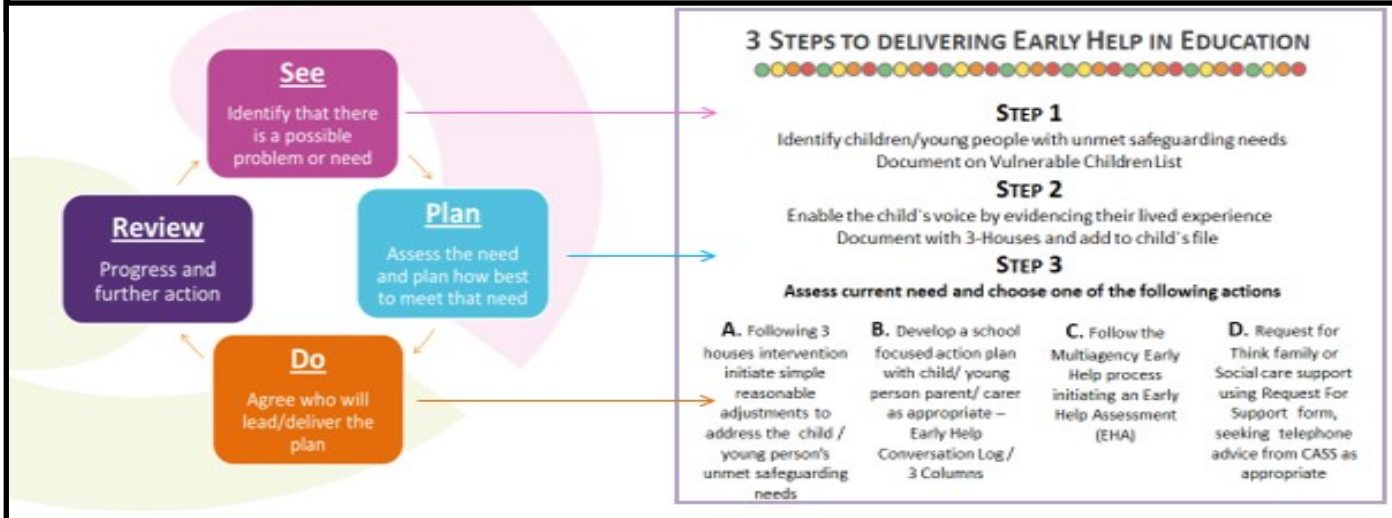

Image A shows the '3 Houses' document that would be completed with your child to ascertain their thoughts and feelings. Following this, we would then choose between options A, B, C or D based upon the child's and your family's needs. This would all be done in partnership with you and each step communicated fully.
